Lisa Grady recently joined the One Stop's clinical team as a Licensed Chemical Dependency Counselor, LPC Intern and QMHP-CS II. She has worked in the counseling field for almost 9 years. She started her career working with TDCJ at the SAFPF (Substance Abuse Felony Punishment Facility) in Gatesville at the Hackberry satellite of the Crain unit where she worked with Special Needs females. From there she moved to the Hamilton Unit in Bryan working male clients in the DWI program. Lisa joined the MHMR team over three years ago, starting at Substance Abuse Service before transferring into her current position. She says that she "truly loves working with the substance use population and knows that anywhere my road leads, I will always remain dedicated to working with those struggling with addiction". A fun fact about Lisa is that she was born an identical twin to an identical twin!
